Check out the district website for more information on meetings and upcoming workshops.

Please contact Sue Rheingans if you have questions (262) 593-5616

This is a great opportunity to meet and connect with other parents who may be facing similar challenges or, who have already faced your particular challenge and can share strategies for handling it. The bigger our group gets, the more effective we can be at supporting each other and bringing about changes in the school district and community.

We hope to see you there!
